

**** Please complete one task (or more if your child is able to) ****

How many Easter eggs altogether?

1.  and 

2.  and 

3.  and 

4.  and 

5.  and 

0 1 2 3 4 5 6 7 8 9

Challenge!

Hi, please help me to work out these subtraction problems.

1. There are 15 Easter eggs in the shop.
3 are bought and taken away.

There are Easter eggs left in the shop.

2. There are 18 Easter eggs in the shop.
6 are bought and taken away.

There are Easter eggs left in the shop.

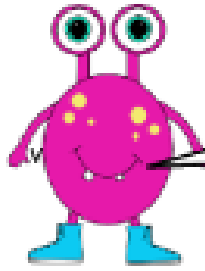

3. There are 13 Easter eggs in the shop.
1 is bought and taken away.

There are Easter eggs left in the shop.

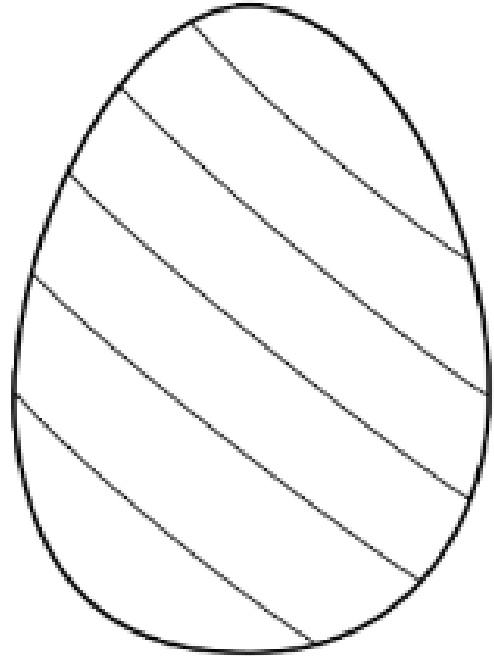

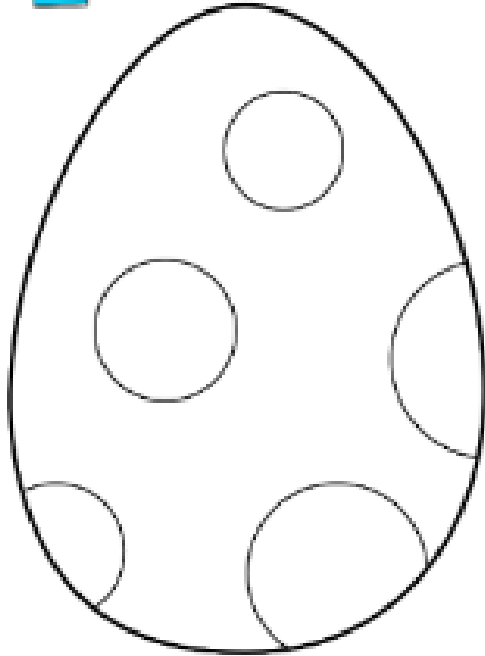

4. There are 19 Easter eggs in the shop.
4 are bought and taken away.

There are Easter eggs left in the shop.

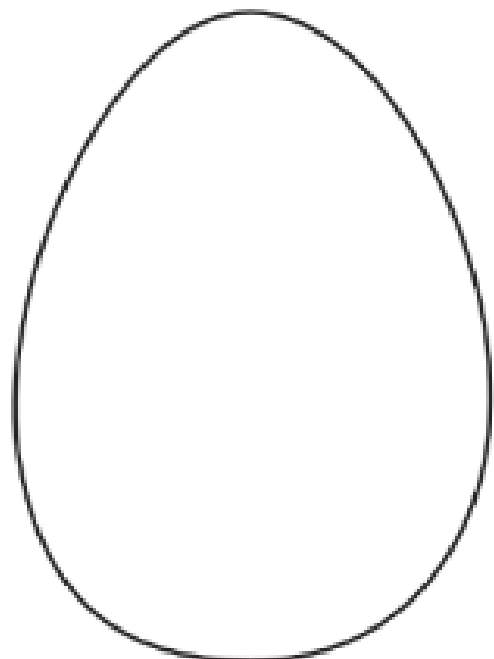

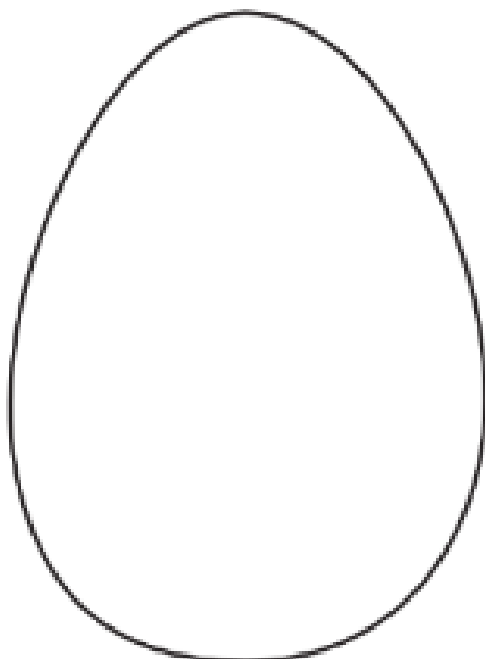

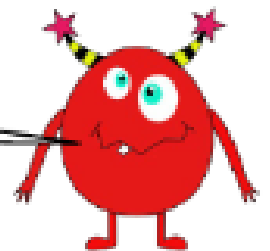

**** Please complete one task (or more if your child is able to) ****

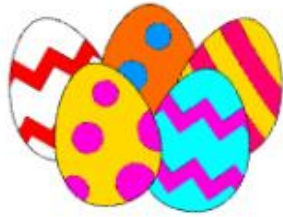

Have fun decorating these Easter eggs.
You could colour them in, stick sequins on, add glitter etc.

Draw your own patterns on these Easter eggs
and then decorate them.

Easter eggs come in lots of different sizes. Some are very small and some are very big.

For hundreds of years people painted real eggs in bright colours at Easter.

The first chocolate Easter eggs were made about 200 years ago.

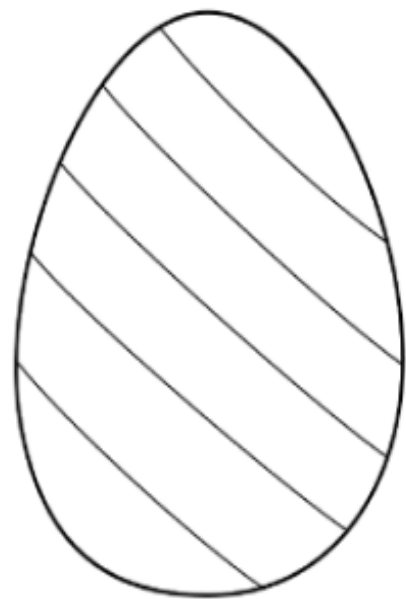

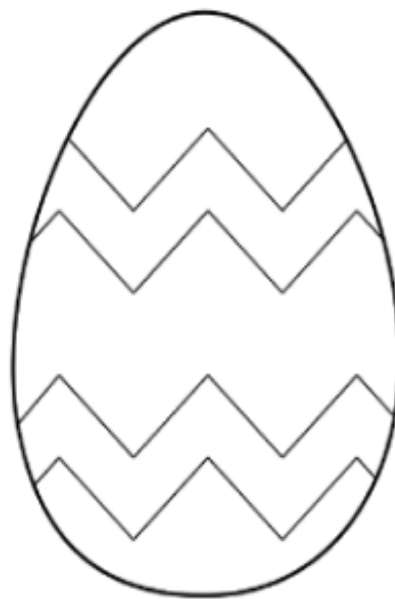

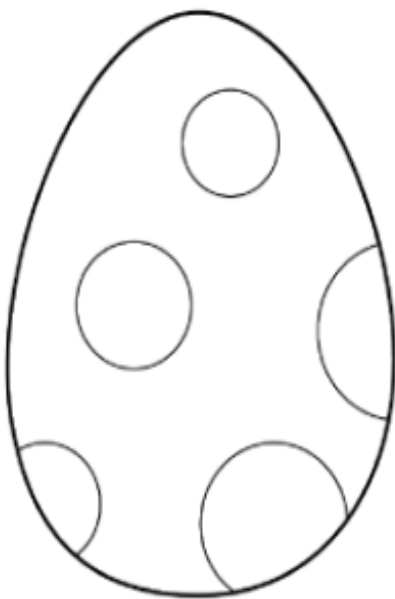

In 1875 Cadbury made their first chocolate Easter eggs. These eggs were filled with sugar-coated chocolate drops.

German chocolate Easter egg makers put a pattern on the shells. This can still be seen on some Easter eggs today.

Easter egg with pattern on shell

Colour these eggs.

Questions:

Fill in the missing words:

1. Easter come in lots of different sizes.
2. For hundreds of years people painted real in bright colours at
3. The chocolate Easter eggs were made about 200 ago.

Try to answer these questions in sentences:

4. When did Cadbury make their first chocolate Easter eggs?

5. What would you have found inside the first Cadbury Easter eggs?

6. What did the German chocolate makers put on Easter egg shells?

7. Draw a picture of the Easter egg that you would like.
